Features & Specifications

Application

A linear 6 x 6 fixture for distinctive architectural lighting plans. Ideal for corridors, lobbies, and office areas. The M6 fixture can be installed individually or in continuous rows. It can be mounted in a grid ceiling, a sheetrock ceiling using a flange, surface mounted, or wall mounted.

Features

Optimized for T8 or T5 lamp performance. Computer-aided housing design allows for optimum luminaire efficiency.

Construction

Housing constructed heavy gauge cold rolled steel. Die-formed flat steel door with mitered corners for clean appearance. Easily removable diffuser for lamp access and cleaning.

Electrical System

ETL listed. Suitable for damp locations. Damp location emergency pack must be specified separately. Ballasts are solid-state electronic. Ballasts and lamp holders are replaceable without removing from ceiling. Discrete voltage must be specified for emergency pack options when wired with flex.

Finish

All reflective surfaces are finished with a high reflectance, lighting fixture white polyester powder.
